

# The UK's No 1 Range of First Aid Training Books

QUALSAFE<sup>®</sup>  
.COM

Did you know that Quallsafe.com first aid training books are the most popular in the UK? Not only are our books used by over 2,500 training providers, including NHS Trusts, councils, universities and colleges, we are also the exclusive supplier for the NHS Ambulance Service. With clear, accurate information accompanied by real-life images and diagrams, our books are designed to make learning first aid as simple as possible. However, it's not just this that sets us apart from the crowd, there are so many other reasons to choose Quallsafe.com:

## 1 Leading Paramedic Author

All of our first aid books are written by leading Paramedic and first aid figure, Nigel Barraclough. Not only does Nigel have decades of experience in the emergency care field, he is also a prominent member of the First Aid at Work Quality Partnership and the First Aid Awarding Organisation Forum. Dedicated to ensuring the highest standards for all aspects of first aid, Nigel is a committed campaigner for the rights of training providers, first aiders, and those who need first aid!

## 2 Complete Clinical Governance

It may surprise you to know that the HSE state that where a training provider uses training material other than the Voluntary Aid Societies' First Aid Manual, the material must be supported by a responsible body of governance. Furthermore, legal advice from the Resuscitation Council UK also explains that in order to withstand the scrutiny of law, first aid advice should be supported by a responsible body of medical opinion.

Here at Quallsafe.com we take clinical governance very seriously. We know that the accuracy of advice within first aid books can significantly affect morbidity and mortality in emergency situations. Additionally, in contrast to verbal advice given by a first aid trainer, the information that trainers provide to students

in writing is something that can be proven beyond doubt in law and therefore it must be accurate and sufficient in order to protect the training organisation who issued it.

Many other first aid training books are not supported by a clinical governance team, and whilst they may claim that their guidance is in line with the Voluntary Aid Societies', that text is copyrighted, so at best the author will paraphrase and at worst they will omit or confuse essential elements of advice.

Quallsafe.com is proud to have a distinguished responsible body of medical opinion that review and support our material, which includes:

### Dr. Andrew Lockey

Consultant in Emergency Medicine, Honorary Secretary of the Resuscitation Council (UK), Vice Chair of the European Resuscitation Council Education Working Group, member of the ILCOR Education Group.

### Prof. Gavin Perkins

Clinical Professor in Critical Care Medicine, Chair of the Resuscitation Council (UK) ALS Committee, Chair of the European Resuscitation Council BLS Working Group, Co-Chair of ILCOR.

### Dr. Amjid Mohammed

Consultant in Emergency Medicine, Fellow of the Royal College of Emergency Medicine, Sports Physician.

### Dr. Paul Jarvis

Consultant in Emergency Medicine, Fellow of the Royal College of Emergency Medicine, Honorary Senior Lecturer University of Leeds.

### Dr. Sal Uka

Consultant Paediatrician, Fellow of the Royal College of Paediatrics and Child Health, Member of the British Paediatric Neurology Association.

### Mrs. Tracy McClane

HCPC Registered Paramedic, Paramedic Clinical Supervisor, Queens Ambulance Medal.

## 3 In-House Clinical Support Team

Quallsafe.com also has a fantastic in-house clinical support team, which includes a former Paramedic Clinical Supervisor and a former Paramedic Clinical Tutor. On hand to give customers first aid guidance and answer any clinical queries they may have, our support team is truly unique!

## 4 Extensive Range of Books

The Qualsafe.com range also includes an ever increasing selection of safety books:

- Level 2 Food Safety Made Easy
- Level 2 Health & Safety Made Easy
